

THE ENTIRE INDUSTRY IS TALKING...

Are you listening?

Anterix has launched the **Anterix Active Ecosystem Program**—an open program providing technical and marketing support to a broad ecosystem of technology innovators to bring extensive value to utilities and critical infrastructure deploying and operating 900 MHz PLTE networks.

This program also strengthens and expands the landscape of 900 MHz devices, services and solutions for these vital industries. Members will share technical insights, advance solutions and collaborate on opportunities for 900 MHz PLTE networks.

Anterix is working with a broad range of technology innovators to deliver a vast ecosystem of products and services designed to help our customers realize the promise of Private LTE at 900 MHz for grid modernization and our nation's critical infrastructure businesses.

Anterix[™] ACTIVE Ecosystem Program

Our Program Members are...

Over 40 Technology Leaders Enabling Private Networks.
